# Introduction

## **Your Birthday, Your Year**

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## **A Special Event**

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Active Reception

*Ascendant in Libra*

This year can involve stepping into the middle of things and fearlessly upsetting the applecart if you see that needs to be done. You look the part of a reformer, someone who has an improvement and even a solution, and the only way you're going to sell it is to play it to the hilt. That means getting involved in relationships that may be touchy at times and knowing when to pull back if you've really hit a raw nerve. In the end, however, you're a fixer - and the greatest talent involved is spotting what needs fixing, and what doesn't.

### Emotional Experience Arises

*Moon Opposite Ascendant*

There's a lot to be said for handing off to a partner this year, because that's what you're going to feel like doing. Your ability to speak for and with another is heightened, and in the process your inclination to promote yourself is diminished. Let someone else do it for you when you can.

### Physical Building Arises

*Saturn Trine Ascendant*

A careful, more conservative and less playful approach may be in store for you this year, or at least that's how you'll appear to others. It's not that you're no fun, just less likely to buy every new product before it's even out of the box. Better to be redolent in the old joys than dive into a new one with less certain prospects.

## The Midheaven

## Your Reputation, Career, Life Path

### Manage Home

*Midheaven in Cancer*

Whatever they're saying about you, it really means they're not hearing enough real information and probably have to make it up. In certain ways, you're a closed book this year, at least to strangers, because you've got more important things to spend your time on than broadcasting about yourself.

### Manage Emotional Objectivity

*Moon Square Midheaven*

Your emotional concern with personal affairs this year may distract from longer-term career or life-building when they don't all exactly compliment each other, which they won't. It's a matter of playing one off the other so that each benefits and neither suffers, which tends to begin exactly the other way around.

### Manage Examining Insights

*Uranus Sextile Midheaven*

Unexpected developments in hidden places benefit your career and reputation this year, and you may not even know about them until well after. Sometimes the dice just fall the right way, even when you don't know you're in the game. You can take it for granted, but don't take credit for what you didn't do.

## The Sun

## Your Inner Personality and Style

### Communication

*Sun in 3rd House*

Self-expression is not an abstract idea for you this year, it's an everyday occurrence that requires you to articulate yourself to as many people as possible in the clearest way available. That means exploring multiple channels of communication and strongly identifying yourself with them. Talk may be cheap for some, but for you this year it's the heart of the matter and so you speak from the heart, even if it gets repetitious. Where action may have been the more effective path, discussion makes more money and goes more miles than barging ahead. When you make yourself clear, you're at the head of the pack.

### Teaching Ideas

*Sun Conjunct Mercury*

Your plans and designs this year are closely tied up with your ego, which can serve you well personally but may also have you too close to the subject to be objective about what you're preparing. A little advice from outside wouldn't hurt before you make it all your own exclusive dog and pony show.

### Public Peace

*Sun Square Neptune*

Inner confusion is a stumbling block this year, as when you're not sure about your own inner truths it's hard to determine what outside reality is. It's easy to get lured off the path and into the bushes by beckoning promises that seem to offer a better way, but you may be best putting on blinders

## The Moon

## Your Feelings, Reactions, Emotions

### Tough Support

*Moon in Aries*

Your reaction time this year is definitely kicked up a notch, making your feelings a bit more on a hair trigger as you lead with your emotions a lot more than you're used to. That can mean a rush to judgment as you go with the first window you see on every situation without waiting for the whole scene to develop fully. But it will also allow you to have your foot in the door and get the initial say on matters - then all you have to do is think on your feet to justify the first words that came out of your mouth. It may take some time getting used to the speed you achieve, a challenge keeping up with yourself.

### Support and Care

*Moon in 6th House*

This may seem like a year of putting things in order, which can include everything from a big learning jag to a new way of sharing your own experience and wisdom with others. Certainly the urge to be of service by cleaning up your act (or that of others') has a stronger emotional appeal right now, as do the details of everyday life which may have escaped you as unimportant but now loom up with new and interesting features all around you. It's a lot about caretaking and generally taking care - of yourself, of your surroundings, of the immediate and surprisingly dear world that by reflection defines your life.

### A Start is Made

*Moon Square Mercury*

Head and heart can be at sixes and sevens this year, so that you put just the wrong word on what you mean and then have to correct it, by which time the feeling behind it will have changed, and so on until you chase down both the phrase and the feeling. Allow yourself extra time for adequate correction.

### Embodying

*Moon Trine Mars*

Your first reaction to what you should do, how you should take action, is usually the right one this year, guiding your energies in an easy upward spiral, since you seldom get in your own way. A smooth, strong course simply confirms itself as you go along, so you tend to consistently feel good about what you're up to.

### Patience

*Moon Sextile Saturn*

Editing yourself and your reactions this year comes so naturally that you don't give it a second thought. It's not reticence when you are simply cool at the right moment and don't bat an eye. Remaining unruffled in the face of turbulence comes from keeping an eye on the horizon, so you don't notice it in the first place.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury Your Mind and Intellect, Thoughts and Plans, Communication

**Spiritual Ideas** *Mercury in Sagittarius*  
 Details won't matter as much as getting to the truth of the matter this year, as that's where your mind's headed. Feel free to be a little windy, speculate and philosophize, because you can't get things organized until you know what the overall plan is all about. Then you can flesh it out with details and applications.

**Communications** *Mercury in 3rd House*  
 Organizing your channels of communication is ahead this year, whether it's the written or the spoken word. Where and how you say it becomes increasingly important and you'll need a plan to make it all flow smoothly. The more information you can fit into each channel, the less pressure there will be.

**Critique** *Mercury Sextile Jupiter*  
 Small steps of logic lead to big conclusions this year, and you won't need great leaps of the imagination to migrate to the leading edge. Smooth development based on business as usual takes you farther than you might envisage at the start if you let things develop on their own and don't push to produce.

**Public Inspiration** *Mercury Square Neptune*  
 Mental confusion and spiraling uncertainty are challenges to meet and overcome this year, as your thinking process is subject to blurring by influences that might not ordinarily derail you. Part of that may lie in your demanding more clarity than is available and refusing to continue without it. Instead, press on, regardless.

## Venus

## Your Needs, Wants, Desires

### Practical Love

*Venus in Capricorn*

Simple fare does not preclude elegance, and classic tastes are likely to have greater appeal to you than overstated add-ons. Less is more, and mainly it's more intense, even when it's hunger that's the best sauce. You won't need a lot, but what you take in, you'll devour to the bone, and make soup out of the rest.

### Love of Home & Family

*Venus in 4th House*

To get what you want in life, it's important to be pleased with your own circumstances to begin with, so you radiate quality. This year you will want to pay some extra attentions filling out and feathering your own nest, so that when you leave home, it's just another brief escape from the palace, noticed by all.

### Sublimation

*Venus Sextile Mars*

Work and play alternate in easy steps ahead, and when you set your sights on the possible, it's already in your pocket. That's a sure-fire recipe for comfort and satisfaction, and since it comes naturally for the moment you won't even have to go over the recipe. It's a slow hand and a gentle touch, much to be desired.

### Ideas of Control

*Venus Conjunct Pluto*

You will have it, you shall, you must! It's an ongoing thread this year which could lead you into deep waters if you let that current take you. When a sense of destiny overtakes desire, the border between safe and sorry can come perilously near, so make sure you take only what's really yours, or you'll get yours all too soon.

## Mars

## Your Energy, Life Force, Excitement

### Business Drive

*Mars in Scorpio*

Covert action will get you everything, though you don't have to act like a secret squirrel to do so. Just keep it smooth, don't give away your hand, and don't expect compliments on a job well done when you're keeping it under wraps for the moment, anyway. Proceed with care and caution, get the job well done for later.

### Urge for Growth

*Mars in 2nd House*

Hard work promises tangible rewards this year, and certainly that's where you'll be directing a lot of your energy. Just remember that throwing good money after bad can really slow you down, so before you throw yourself into the task, make sure the previous push has got you going in the right direction.

## Public Ambitions

*Mars Square Jupiter*

There's a tendency to overdo or underdo what needs to be done, especially when it's something new you haven't tried before. Like a batter facing a new pitcher, you have to swing and miss several times until you get a sense of where to connect with the ball. It's a waste of energy, but necessary to get into tune.

## Secrets of Power

*Mars Sextile Pluto*

There's a feeling you've got the wind behind you this year, as your energies get a regular boost from currents that you may not actually be able to put your finger on. Just accept the help with thanks and employ the help to do what you know is right. It's part of a larger tide that's on your side.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

**Jupiter** **Ambitions, Goals, Possibilities**

**Community Career** *Jupiter in Aquarius*  
 The upward path will be much about giving everybody a piece of the pie and sharing all resources to pull ahead together. It's not a great climate for going solo, since everybody's looking to share both wealth and burden, but it's a good time to discover untapped potential in people and places which were there all along.

**Expressive Career** *Jupiter in 5th House*  
 Opportunities for creativity abound, perhaps more than can be kept track of. Your challenge is to choose the new games that will actually have appeal beyond the moment, choose the form of play that keeps playing when the other shows have closed. You'll have fun regardless, but why not make it an investment?

**Saturn** **Caution, Wariness, Wisdom, Boundaries**

**Obstacle: Community** *Saturn in Aquarius*  
 This year does not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

**Obstacle: Security** *Saturn in 4th House*  
 If your place is overloaded with stuff, get rid of some of it this year. A lot of what you think is essential to your act is totally extraneous, getting in your way, and now is the time to clean house. You really require less space, which means less to support and defend. Choose what you truly treasure, embrace that.

## Objective Research

*Saturn Square Uranus*

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

**Uranus** **Discovery, Revelations, New Ground**

**Freedom: Productivity**

*Uranus in Taurus*

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

**Freedom: Business**

*Uranus in 8th House*

Expect unexpected offers in the credit department this year, but whether you want to rush to take advantage of them is another issue to be dealt with carefully. Genuine opportunities of lost treasure may truly arise, but all that glitters is not gold, and following fool's gold is a fool's errand.

**Neptune** **Dreams, Hopes, and Fantasies**

**Embrace: Life**

*Neptune in Pisces*

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

## Embrace: Caring For

*Neptune in 6th House*

Wishing and thinking about what needs to be done won't ultimately make it happen, especially where practical, everyday matters are concerned, but it's a good start. You may find yourself accruing a host of good intentions this year, which by and by may turn into specific applications, but don't push yourself unnecessarily.

## Change Blocked

*Neptune Sextile Pluto*

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

## Pluto

## Necessity and Fate, Power, What Must Be

## Control: Practicality

*Pluto in Capricorn*

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

## Control: Family

*Pluto in 4th House*

Your greatest power comes from your own inner foundation, not the tool you momentarily have in your hand. That's something you'll tap into this year, as when the inner bell rings, the outer walls resound. It started at home as a little child and it renews itself at home to this day. That's where to look.

# Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

## Midheaven

### Your Reputation, Career, Life Path

#### Manage Practical Emotions

*Moon Conjunct Midheaven*

You're very attuned to the buzz about you this year, and your first reaction will be to interpret and manage a situation directly as it relates to improving your status and reputation, particularly professionally. It's not always all about you, however, so over-advertise to audiences who aren't really interested.

## Sun

### Your Inner Personality and Style

#### Teaching Ideas

*Mercury Conjunct Sun*

Your ability to say who you are is particularly heightened this year, and you can lay out your goods for all to see and understand simply by delineating a word-picture where you might have had to rely on a personal appearance before. This allows you to sell yourself in multiple places at the same time.

## Pluto

### Necessity and Fate, Power, What Must Be

#### Ideas of Control

*Mars Conjunct Pluto*

Your ability to steamroll over any obstacles that present themselves is doubled, but your judgment as to whether that's the right approach needs to keep up with your inner forced march. Don't do it just because you can "but don't hesitate to do it if you must. Power and responsibility are the lessons at hand.

## Moon

### Your Feelings, Reactions, Emotions

#### Ideas for Success

*Jupiter Conjunct Moon*

Expect a general feeling of inner expansiveness and emotional bounty, in which your response to situations will be unusually generous and giving, perhaps at times to your own detriment, so use judgment. You may tend to overreact, at least in the eyes of others, but in a most positive fashion.

## Featured Natal Positions (continuation)

### Saturn

### Caution, Wariness, Wisdom, Boundaries

#### Problems Accentuated

*Saturn Conjunct Saturn*

This Saturn return (happens once every 29 1/2 years) marks a major point of personal maturation and integration into the matrix of society at large. To the degree that you're already in the social mainstream, you'll feel reinforced. To the degree you're apart from it, you'll feel increasing distance.

### Midheaven

### Your Reputation, Career, Life Path

#### Manage Practical Spirituality

*Neptune Conjunct Midheaven*

Wild tales and phantasmagorias are heard about you abroad, so learn to manipulate your reputation rather than depending upon it reflecting in any way your real situation. You can fly many flags and never betray yourself, but at the same time you can inadvertently be misidentified, so be ready to defuse.

### Ascendant

### Your Looks, Your Presentation

#### Manage Practical Spirituality

*Midheaven Conjunct Ascendant*

Although the masses may not crowd around waving pictures of you on sticks, there's a background feeling like they're doing just that. Expect your picture to be passed around and what you look like to be talked about more than you might imagine. What they see is who you are, or that is what they believe.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Dec 12, 2021 to Dec 12, 2022

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

**Teaching Ideas**

*Sun Conjunct Mercury (TR-SR)*

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

**Ideas of Control**

*Venus Conjunct Pluto (TR-SR)*

Compulsive desire is all the rage, and some people are ready to go to any ends to get what they want. Gotta, gotta, have it, whatever the price anyone pays. So, be sure that you don't get in between the desirer and the desirer. On the other hand, this is the aspect of unbearably overwhelming passion when put into effect.

**Transform Ideas**

*Mercury Conjunct Pluto (TR-SR)*

Stubborn, hardheaded, intractable -- these might describe anyone you run across, as the forcible pursuit of pet opinions seems to be the order of the day. It pays to make your point, but don't beat your head against a wall -- and don't be the wall, either. A powerful day for beginnings, but only if you're tireless down the road.

**Ideas of Love**

*Mercury Conjunct Venus (TR-SR)*

This is an ideal time for achievement in arts and letters -- whether it's redecorating, taking great pictures and movies, or doing a makeover. A keen eye for the beautiful is in sharp focus and a strong sense of shape and proportion makes for good judgment in all aspect of design, now and for posterity.

**Ideas of Discipline**

*Mercury Conjunct Saturn (TR-SR)*

It may be hard to get your head into gear, but once you do, you can go into great detail. Thoroughness is the watchword and you will not want to be in the company of scatterbrains. With the Thinker as the model, there is the risk of taking things too seriously, but anything begun now will wind up a heavyweight for sure.

Putting up resistance and providing it are in the air, so be ready to find a way around issues not worth fighting for. Undertakings begun now will have a strong element of power and change, but they can wind up taking up all your time in order to retain control of them. All or nothing choices can be avoided just by waiting them out.

**Love of the Future**

*Sun Conjunct Venus (TR-SR)*

Ego compounding desire can make this moment hot but nearsighted at the same time. In the passion of the moment all are more likely looking out for number one than for the general good, and the possibility of missing the long-range win is real. Seek what you want, but remember you'll still have needs tomorrow.

*Moon enters 7th House (PSR-SR)*

A year that seemed to begin with business as usual has evolved into a partnership effort, or at least it's becoming clear you're going to need some help and cooperation to make the most of it. Your inclination to pass the ball is a wise one, and you'll have a lot more fun than playing solo.

**Ideas of Authority**

*Sun Conjunct Saturn (TR-SR)*

If everyone is taking things very seriously, there may be a reason -- or there may not be, so lighten up. When progress is slow, spirits dampen, and vice versa, but forced endurance creates strength, so these clouds have silver linings. Commitments made now will hang around for a longtime, so choose with care.

For a moment you can't believe you just heard yourself say that - solutions come pouring out of your mouth and you're sought out (or just stumbled upon) to provide them out of the blue. **Vision of Unity**

*Sun Conjunct Neptune (TR-SR)*

**Organized Ideas**

*Venus Conjunct Saturn (TR-SR)*

Beauty on a budget takes its lessons from bygone days when folks were less wasteful and more resourceful. Clean lines, conservative colors, and classic sensibility paint the picture of what succeeds best right now. A lot of people may be running out of steam right now, but those who are keeping up establish a pace that just won't quit. Mystery holds much appeal and the more difficult it is to put a finger on, the more people are going to want it. # Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
